Detailed Action

Election/Restrictions

1. Applicant's election without traverse of species I, figs. 1-12E, claims 1-10 and 12-19 in the reply filed on December 14, 2007 is acknowledged.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-10, 12-19 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is no antecedent basis in the specification for "a fluid passageway". Also there is no mentioning in the specification of the spout having an internal slider that closes a fluid passageway, hence it is unclear to what the fluid passageway is.
4. In light of the problem regarding the "fluid passageway", the Examiner cannot adequately determine what is being claimed. The Examiner's failure to apply prior art should **not** construed that the present claims are indicated as allowable subject matter.
